

Luminosity Suite™

Clarity. Visibility. Efficiency.

Adding clarity, visibility and efficiency to your discovery process.

Our proprietary suite of technologies, customized workflows, and best-in-class services reduce your overall eDiscovery cost, risk, and time-to-production. The Legility Luminosity Suite™ enables you to address your litigation and investigation risks effectively on a single platform, delivering every tool in the toolbox — all built on top of Relativity so your team can work in a technology environment they love.

Overview

The Legility Luminosity Suite™ combines legal project management, custom development and best-in-breed technologies to provide our clients with a cost-effective and defensible discovery process. Our proprietary workflows and solutions, coupled with our unparalleled expertise and consultative approach, allow corporations, law firms and government agencies to recognize extensive discovery-related efficiencies and, in turn, substantially mitigate their costs and risk throughout the process.
