

Recenseo™

Reliable. Agile. Efficient.

Legility's proprietary software, Recenseo™, delivers a robust and technologically advanced review environment for both law firms and corporations.

Envize™, our predictive coding solution behind Recenseo, when coupled with the art of experienced advisors and a dedicated project management team, allows review teams to quickly and efficiently get to the documents that really matter.

Reliability

- Anywhere and anytime
- Dedicated project management and training
- State-of-the-art data center — secure, stable, and scalable

Faster Review

- Customizable reporting and analysis
- Conceptual clustering and categorization
- Dynamic review workflow management and rule
- Additional legal and/or litigation support services provided and performed by Legility team members

Let's change the business of legal together.
