## Self-service eDiscovery

### The full power of Legility eDiscovery - delivered via an intuitive, self-service web interface

Your legal team is squeezed. You're being asked to do more with less, all while trying to grow your business. For smaller or repeatable matters or internal investigations, bring the full power of the most trusted name in eDiscovery in-house – via a secure, easy-to-use user interface – without a complex setup process and without incurring project management fees. With Legility Zenith, you can significantly reduce your eDiscovery overhead while speeding up litigation and investigation workflows.

#### Overview

With Legility Zenith, your legal team can process and access case data in-house quickly, easily, and cost-effectively. Zenith is a web-based, self-service eDiscovery solution that is intuitive yet powerful, ideal for small to medium-sized cases and internal investigations.

#### Features

- **Secure Sharing & Collaboration:** Secure, access-controlled collaboration on documents
- **Drag & Drop Discovery:**
- Drag and drop native data directly into the browser for high speed data processing

#### Zenith Offers

- ✓ Fully automated, secure user interface
- ✓ Easy case setup and data upload
- ✓ Drag & drop data processing
- ✓ Secure, browser-agnostic review interface
- ✓ Customizable, interactive discovery analysis dashboard
- ✓ Real-time, online production

- Supports 20+ container/archive formats
- Search terms tagged on upload
- **Full Review:** Manage full document review with customizable layouts, easy tag management, and rich search capabilities
- **Robust Case Analysis:**
- Visualize and filter results to quickly get critical data
- Search, filter, cull, and tag

**You want full control over the eDiscovery process - without capitial expenditure and startup costs. Zenith delivers exactly that - quick, easy, self-service discovery.**

**Adam Wells**  
SVP. Strategy & Consulting

### Benefits

- Reduce setup time and project overhead significantly
- Free up project managers and other costly resources to work on bigger jobs
- Streamline eDiscovery processes and reduce time-to-production
