

Enterprise Legal Solutions

A Better Way to Make Your Due Diligence Flow.

Enterprise Legal Solutions provides on-demand expert corporate lawyers in combination with advanced tools, processes, and data analytics.

Get the support you need on deals, contract drafting and negotiation, CMS implementation, regulatory and compliance matters, litigation and case management, as well as with legal operations. Our proprietary processes and reporting put you in charge, every step of the way. Save 50%+ by leveraging our specialists, methodology and toolset.

Deal Support

Legility’s M&A experts, process and technology make your due diligence flow. Our approach opens up the process and exposes key data points on a prioritized basis, helping you to understand facts sooner and influence key deal decision points before it’s too late.

Better still, our team can ensure that your carefully curated data is automatically translated into your ongoing operational environment. If you don’t have one of those, we can help with that, too.

The Legility Advantage

Post-Deal Leverage

Work through post-closing playbook and transport actionable data directly into your operational systems. Engage our professionals to action post-closing business drivers.

Data Visibility

Real-time data points on progress and key deal points along with pre-agreed due diligence reports and post-closing playbook.

Knowledge

Post-Deal Leverage

Data Translation

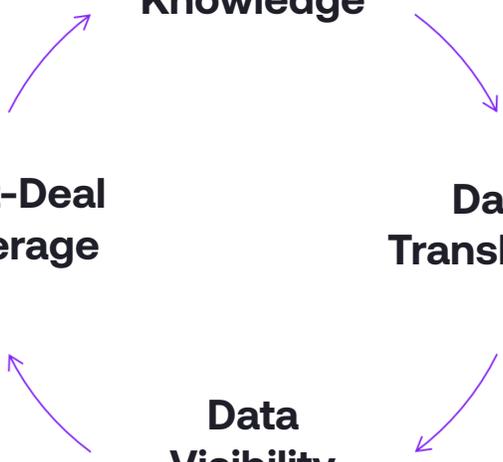

Data Visibility

Knowledge Build

Draft strategy, priorities, key deal points and communications workflow. Understand cost. Land a budget. Flex deep domain expertise to layout workflow, determine use of tools and automation, and develop actional data fields and summaries.

Data Translation

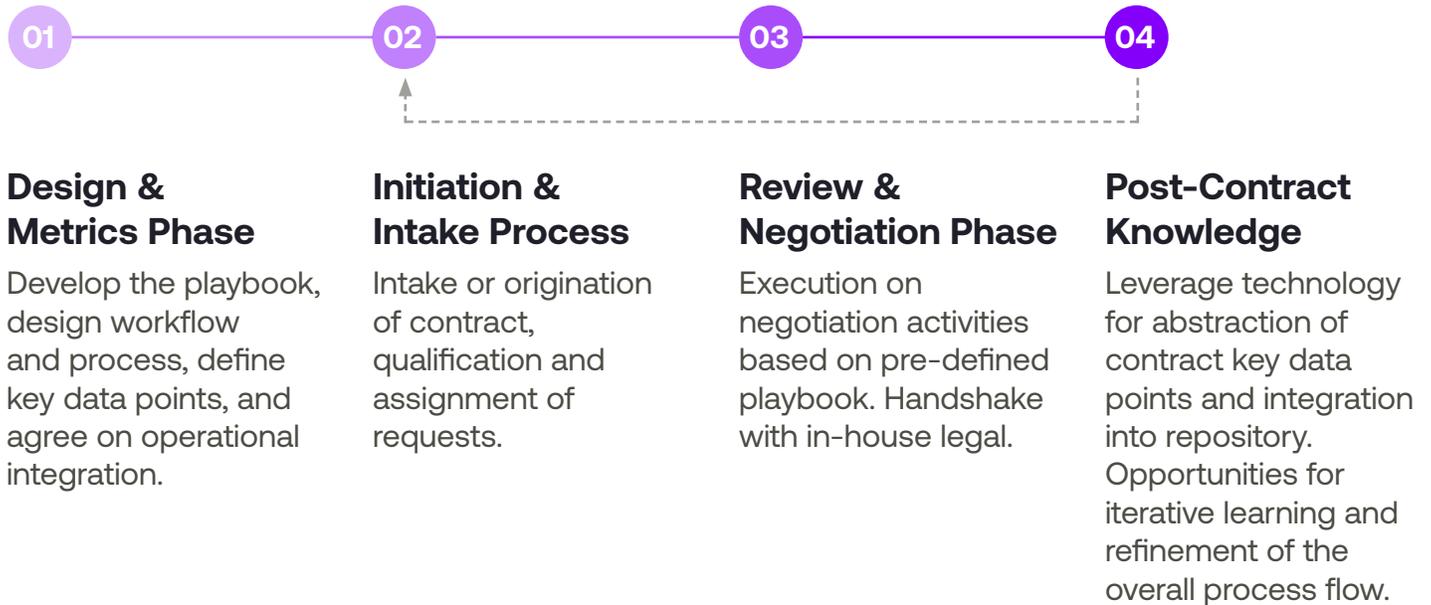

Due Diligence documents are translated into actionable data. Built-in QA and real-time reporting with pre-defined escalations.

Commercial Contracts

Legility can help you outsource drafting and negotiating agreements, as well as CMS implementation. Reduce costs and save time with a customized workflow, powerful technology, and on-demand staffing.

Contracts – A Better Way

Regulatory & Compliance

Look to Legility to help you manage any regulatory and compliance issue, whether on a one-time basis or as part of your company's regulatory fabric. Our consistent approach provides you the visibility you need to understand your path to compliance, and our methodology makes it easy to chart how we'll get there. Whether you're addressing upcoming regulatory changes or looking back to ensure that your current business practices are compliant, we're here to help using:

- Visibility through dashboards
- Expert insights
- Methodology and project management
- Abstraction and analysis

Litigation Associates

Disaggregate your litigation work for more efficient and cost-effective results. Our on-demand attorney teams perform associate level work under your supervision, coupled with custom workflows and metrics reporting. Stay on budget and manage deadlines with our scalable, versatile and knowledgeable team. Litigation Associate services are offered for the following litigation/case management stages:

- Initial intake and document holds
- Fact development
- Document collection and employee interviews
- Discovery requests and responses
- Deposition preparation
- Expert discovery assistance
- Trial preparation and second chair duties

Legal Operations Tools & Consulting

Working at the heart of Legal Operations, Legility's multi-disciplinary experts draw from decades of innovation in the legal industry. Our tried and tested tools and advisory services align with benchmarks established by the ACC Legal Operations Maturity Model and CLOC Core Competency Legal Operations Reference Model. We design processes, implement technology solutions and manage information flow with and through legal departments and our solutions are agile and deployed quickly, often within a matter of days.
