

Envize™

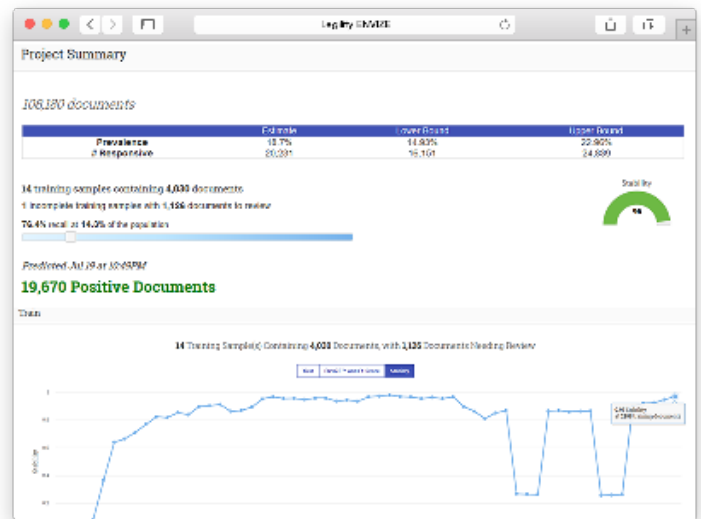

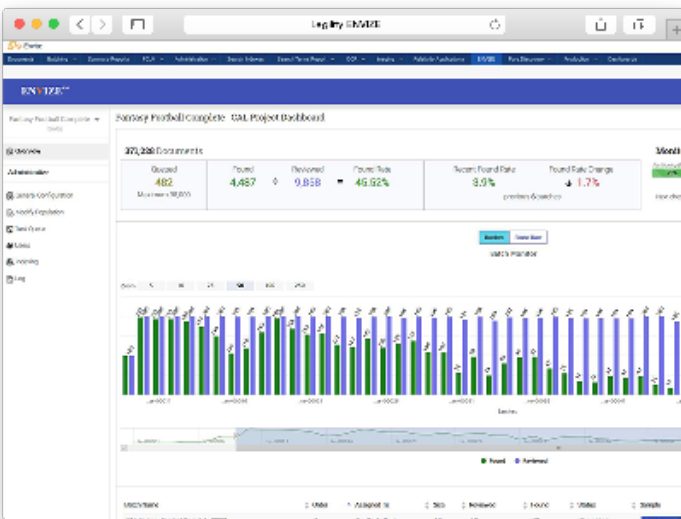

Optimized Technology. Maximized Efficiency.

Envize™ provides powerful machine-learning analytics to help you focus on the critical documents in an eDiscovery review.

Envize’s unique user experience, easy-to-use interface, and ability to handle large cases is unmatched in an Industry where complex, difficult-to-use systems have been the rule. We’ve integrated Envize into industry-leading review platforms so that you don’t have to manually move ESI between systems. That means existing workflows in your favorite platforms can still be used; Envize will simply make review projects faster – and better.

Benefits of Envize™ include:

- ✓ Scalable, highly advanced technology
- ✓ Continuous Active Learning™ functionality
- ✓ Transparent, flexible, and easy to use
- ✓ Unparalleled process flexibility
- ✓ Begin review immediately

Envision the Power of Envize™

- Next generation Continuous Active Learning capability as well as Simple Active Learning - users can review everything they produce in a prioritized fashion or Implement a point cut off solution
- Utilizes just-in-time batching to incorporate your CAL review into Relativity's review batching
- Simple intuitive set up and project recommendations
- Patented training sample selection and stabilization measurement
- Recall targets reached as fast as any machine learning application on the market
- Unparalleled flexibility when handling changing review priorities
- Re-ranks every 4 minutes compared to most machine learning solutions that re-rank once or twice per 24 hours
- One of the only prioritized review technologies fully integrated with Relativity

Envize™ re-ranks every 4 minutes compared to most machine learning solutions that re-rank once or twice per 24 hours.

Legility Team
